

Implementation Team- Vocational Habilitation Framework

The Payment in Adult Day and Employment Services Work Group does not have any future meetings on the calendar. Instead of meeting formally, DODD will convene a small team to work through the implementation of the Vocational Habilitation Framework.

DODD seeks recommendations from the payment in adult day and employment services work group on who should participate on the implementation team. Volunteers can come from inside or outside of the payment in adult day and employment services work group.

The target is for the implementation team to meet virtually during the implementation planning and implementation of the vocational habilitation framework. The implementation team will discuss the implementation details related to training (all stakeholders), outlining the details of the extension process (MSS calculations, field guidance, and DODDs approval process), and sheltered workshop transition project. We would like the group to be no more than 12 people that show a geographical balance of the state of Ohio. The group will meet as needed starting in August 2019.

DODD will continue to communicate implementation details to the Payment in Adult Day and Employment Services Work Group via Basecamp.

If you know of someone willing to volunteer, please email their name to Stacy Collins at stacy.collins@dodd.ohio.gov by end of business July 12, 2019.
