6 Premiums

Some people who are eligible for MBIWD will have to pay a monthly fee for their health care coverage. This is called a premium. This premium will take the place of any spend down or patient liability you may be paying.

If your total family income is less than 150% of the poverty level, you will NOT have a premium. (See chart below.)

If your total family income is more than 150% of poverty level, follow these directions to find out the approximate amount of your premium:

What is your total family income per month? \$ _____

Subtract the amount that is 150% of poverty level for the number of people living in your house _____
\$ _____

Multiply by 10% _____ x .10

Amount of monthly premium \$ _____

Note: If you are currently paying for any health insurance, you may deduct that payment from your MBI premium.
